Classic C doesn't use camel-case; I've written code in camel-case in C, and it looks weird (so I don't do it like that any more).

That said, it isn't wrong - and consistency is more important than which convention is used. Avoid typedefs that encapsulate structure

### Medical Devices

Directive (93/42/EEC,  
as amended),

however it is  
important to note that  
not everything found  
in a hospital or in a  
healthcare setting will  
fall within scope. Only  
devices or  
accessories of such  
devices that fulfil a  
specific definition can  
be CE marked.
