The book is the volume of "The Political History of the Spring and Autumn Period and the Warring States Period" among a series of books of "Deep into China Histories". The earliest known written records of the history of China date from as early as 1250 BC, from the Shang dynasty (c. 1600–1046 BC) and the Bamboo Annals (296 BC) describe a Xia dynasty (c. 2070–1600 BC) before the Shang, but no writing is known from the period The Shang ruled in the Yellow River valley, which is commonly held to be the cradle

of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations, and is regarded as one of the cradles of civilization. The Zhou dynasty (1046–256 BC) supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent

and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature and philosophy first developed during those troubled times. In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi or "emperor" of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death, and was supplanted by the longer-lived Han dynasty (206 BC – 220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-

officials. Young men, well-versed in calligraphy, history, literature, and philosophy, were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644–1912), which was replaced by the Republic of China in 1912, and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace, and periods of war and failed statehood – the most recent being the Chinese Civil War (1927–1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or

all of China; in some eras control stretched as far as Xinjiang and Tibet, as at present. Traditional culture, and influences from other parts of Asia and the Western world (carried by waves of immigration, cultural assimilation, expansion, and foreign contact), form the basis of the modern culture of China.

Adrian Rollini (1903–1956), an American jazz multi-instrumentalist, played the bass saxophone, piano, vibraphone, and an array of other instruments. He even introduced some, such as the harmonica-like cuesnophone, called Goofus, never before wielded in jazz. Adrian Rollini: The Life and Music of a Jazz Rambler draws on oral history, countless vintage

articles, and family archives to trace Rollini's life, from his family's arrival in the US to his development and career as a musician and to his retirement and death. A child prodigy, Rollini was playing the piano in public at the age of five. At sixteen in New York he was recording pianola rolls when his peers recognized his talent and asked him to play xylophone and piano in a new band, the California Ramblers. When he decided to play a relatively new instrument, the bass saxophone, the Ramblers made their mark on jazz forever. Rollini became the man who gave this instrument its place. Yet he did not limit himself to playing bass parts—he became the California Ramblers' major soloist and created the studio and

public sound of the band. In 1927 Rollini led a new band that included such jazz greats as Bix Beiderbecke and Frank Trumbauer. During the Depression years, he was back in New York playing with several bands including his own New California Ramblers. In the 1940s, Rollini purchased a property on Key Largo. He rarely performed again for the public but hosted rollicking jam sessions at his fishing lodge with some of the best nationally known and local players. After a car wreck and an unfortunate hospitalization, Rollini passed away at age fifty-three.

Hayden Carruth survived isolation, mental health problems, and long struggle with drink and smoke to produce a vision of modern poetry rooted in the New England tradition but entirely his own. Many feel his best poems emerged from the isolation of rural Vermont, and his poems often are concerned with rural images and metaphors reflecting the land and hardscrabble people around him. Together with his second love, jazz, Carruth's rural experiences infuse his poems with engaging and provocative ideas even as they present sometimes stark topics. This volume collects essays and poems from such notable contributors as Donald Hall, Marilyn Hacker, Adrienne Rich, Philip Booth, Matthew Miller, and Sascha

Feinstein, among many others. The book's sections concern the kinds of writings, and the values expressed in his writings, for which Carruth was most famous, including what editor Shaun T. Griffin calls "social utility," jazz, his impoverished rural environment, and "innovation" in poetic form.

Jazz Abadi has it all. She is an heiress, lives in a luxury mansion, and has the biggest social media following in Maiden City. There's just one thing missing: the CEO title of her father's fitness company, Ultimate ME. As her father's health declines, naming his successor becomes paramount. But there's one problem. On paper, Ethan Roth--her father's dashing and

intelligent mentee--is the better candidate. He is a manipulation machine, but he didn't count on one thing: Jazz is no sucker. When Ethan proposes Jazz marry him as part of his business plan, she laughs in his face. Jazz runs from the situation, needing time to build a counter-attack. When she finds herself in a drop-in centre for vulnerable people, she is simultaneously invisible and obvious. As she decides to leave, Adrian steals her attention. Adrian Cassidy is like no man she's ever met. He's distrustful of corporations and the wealthy, and treats just another person in the shelter. Jazz has never had a crush, she's always been adamant that work comes first, but will Adrian be the distraction her heart truly needs? If

Jazz gives into her heart, what kind of person will she become? Will losing focus give Ethan clues to find her? And what will happen if Adrian finds out who she really is? The Happily After When series is inspired by fairytales. Each book is based on a different fairytale, and Jazz is a modern transformation of Aladdin. The Happily After When series looks at the dangerous lessons fairytales teach young people, including: a woman waiting for a man to rescue her, or young men kissing women without their permission. These books deal with young adult social issues, including: class differences, bullying and racism, lgbt issues, runaways, mental health issues, and violence. They are also contemporary romance stories about beating

About This Book One night around 1897 they say Buddy Bolden stood up in a New Orleans Dance Hall and played the first hot blues. It was not until 1917 that the Original Dixieland Jazz Band made the first jazz recording. By 1927, after becoming the popular hit music of the Jazz Age, what we now call Classic Jazz was giving way to a new type of hot music-big band Swing. This book tells the story of the hectic thirty years during which the basic jazz of Buddy Bolden developed into Classic Jazz and then passed into History. It uncovers the music of the twenty
