Kuby Immunology - Thomas J. Kindt, Richard A. Goldsby ...

Janis Kuby's groundbreaking introduction to immunology was the first textbook for the course actually written to be a textbook. Like no other text, it combined an experimental emphasis with extensive pedagogical features to help students grasp basic concepts.

E-Book Kuby Immunology Free in PDF, Tuebl, Docx Kindle and ...

Like the later chapters covering basic topics in immunology, this one includes a section called "Clinical Focus" that describes human disease and its relation to immunity. These sections investigate the causes, consequences, or treatments of diseases rooted in impaired or hyperactive immune

Kuby Immunology | Richard A. Goldsby, Thomas J. Kindt ...

Kuby Immunology by Kindt, Thomas J./ Goldsby, Richard A./ Osborne, Barbara A./ Kuby, Janis The only textbook written for undergraduates by teachers of the course, this bestseller presents the most current concepts in an experimental context, conveying the excitement of scientific discovery, and highlighting important advances while providing unsurpassed pedagogical support for the first-time learner.

Kuby Immunology - Kindt, Thomas J./ Goldsby, Richard A ...

Kuby's book is probably one of the better text books to have if you are an immunology student. Kuby goes into detail that you will not find in other books. It is written for a higher level of understanding than most other text books. It is certainly not a beginners book. I definitely recommend this book to every graduate student studying immunology.

Kuby Immunology is the first and only true textbook written by professors who teach the undergraduate course. It presents the most current concepts in an experimental context with clinical advances highlighted in boxes, supported by the kind of helpful pedagogical tools that other books do not provide.

Kuby immunology. (Book, 2007) [WorldCat.org]

Kuby Immunology by Goldsby, Richard A., Kindt, Thomas J., Osborne, Barbara A., Kuby, Janis Immunology and a great selection of related books, art and collectibles available now at AbeBooks.co.uk.

Drawing on her extensive classroom experience, the editor provides a clearly written contemporary introduction to the body's responses to disease. She brings a strong experimental/clinical focus to the study of immunology at the molecular and cellular levels, employing a range of effective pedagogical tools not found in other introductory books on the subject. A glossary, chapter summaries, and study questions using clinical cases are included.

The only textbook written for undergraduates by teachers of the course, this bestseller presents the most current concepts in an experimental context, conveying the excitement of scientific discovery, and highlighting important advances while providing unsurpassed pedagogical support for the first-time learner. The new edition is thoroughly updated, including most notably a new chapter on innate immunity, a capstone chapter on immune responses in time and space, and many new focus boxes drawing attention to exciting clinical, evolutionary, or experimental connections that help bring the material to life.

Janis Kuby's groundbreaking introduction to immunology was the first textbook for the course actually written to be a textbook. Like no other text, it combined an experimental emphasis with extensive pedagogical features to help students grasp basic concepts. Now in a thoroughly updated new edition, Kuby Immunology remains the only undergraduate introduction to immunology written by teachers of the course. In the Kuby tradition, authors Judy Owen, Jenni Punt, and Sharon Stranford present the most current concepts in an experimental context, conveying the excitement of scientific discovery, and highlight important advances, but do so with the focus on the big picture of the study of immune response, enhanced by unsurpassed pedagogical support for the first-time learner.

The new edition of the acclaimed bestseller, always praised for offering cutting edge material in the context of landmark experiments, in a student friendly format built on pedagogy not usually found in immunology texts.
