Needless to say, there is an infinite variety in the villains that populate our stories, and authors can decide just how much they want us to identify with their creations. Kjeldgaard-Christiansen points out that if we can peek too far inside their minds, and we might get sucked in and begin to identify with them.

Godzilla – Heroes & Villains

RELATED: 10 DC Heroes Who Are Still Dead. However, to quote Two-Face: you either die a hero or you live long enough to see yourself become the villain. That quote is too accurate when it comes to the DC universe; heroes have a tendency to fall from grace and become the villains of the story. 10 Supergirl

In the history of warfare, an elite group of men have attained almost legendary status through their courage, ambition and unrivalled military genius. But many of these same men possessed deep personal character flaws. In *Heroes & Villains*, acclaimed historian Frank McLynn focuses on six of the most powerful and magnetic leaders of all time: Spartacus, Attila the Hun, Richard the Lionheart, Cortés, Tokugawa Ieyasu and Napoleon. How did these mortal men rise to positions of seemingly invincible power? What were the motives, the personal strengths and often weaknesses that drove them to achieve what no one else dared? In six powerful portraits, McLynn brilliantly evokes the critical moments when each of these warriors proved themselves in battle, changing their own lives, the destiny of their people and, in some cases, the history of the world. We discover what drove Spartacus to take on the might of Rome against seemingly impossible odds, and how the young Napoleon rose to power in dramatic fashion at the Siege of Toulon. *Heroes & Villains* is more than a collection of individual biographies. By examining the complex psychologies of these extraordinary men, McLynn builds up a convincing profile of the ultimate warrior. Accompanying a major BBC television series, this brilliant book takes us into the minds of the greatest warriors in history.

Explore history's titans of finance, and their lasting global impact *Heroes and Villains of Finance* is a fascinating dive into the history of money as an institution, highlighting the fifty most significant figures that, rightly or wrongly, are responsible for the financial landscape we live in today. From philosophers and bankers to fraudsters and academics, this book provides a striking introduction to the most remarkable characters in the history of finance. Their impact reaches far beyond the financial system itself, and has helped shape the course of human history. The economic systems of today would look very differently if it weren't for these innovators, thought leaders, storytellers, and rebels, and this captivating examination takes you inside their stories to understand their thinking, their background, their perspective, and their inspiration. People both inside and outside the world of finance are perpetually curious about the larger-than-life characters who built, shaped, and continue to populate the industry. Their actions, both positive and negative, are responsible for what we understand as finance today. This book provides a glimpse into the events and motivations that contributed to the industry's evolution. Learn how the Knights Templar became the first banking institution Examine the Rothschild family's pioneering use of financial instruments in order to safeguard their wealth from distrusting European monarchs Study the origins and evolution of the Ponzi scheme Realise how Reaganomics still affects the U.S. economy today The finance industry is always in the public eye, and it's one of the few places where the actions of a few — or even a single person — can ripple throughout large populations. *Heroes and Villains of Finance* gives you a closer look at the biggest names that had the biggest impact, for better or worse. "This book is a marvellous introduction to a gallery of fascinating figures from the world of Big Money. The author has chosen a brilliant collection of crooks, entrepreneurs, philosophers, economists and bankers. These highly readable short lives provide an excellent education to any reader who wants to understand the personalities who shaped today's world of investment" Luke Johnson, Chairman of Risk Capital Partners, former chairman of Pizza Express and Channel 4 Television, Financial Times columnist and author of 'Start It Up' "Heroes and Villains of Finance provides a fascinating and insightful guide to the personalities and developments that have transformed finance and continue to do so. Anyone trying to understand where finance is now, how it got there and where it might go should read this book" Dr Stephen Davies, Institute of Economic Affairs "An exciting, informative ride through the big ideas and even bigger personalities that have shaped the world of finance" Sam Bowman, The Adam Smith Institute "This delightful book provides a punchy reminder that, whilst we should rightly celebrate the longevity of the vision of the heroes of finance like Adam Smith, the potential downsides of financial innovation have always been with us which we are inclined to forget" Professor Mike Wright, Professor of Entrepreneurship at Imperial College London and ranked #1 worldwide for publications in academic entrepreneurship

Much writing on men in the field of gender studies tends to focus unduly, almost exclusively, on portraying men as villains and women as victims in a moral bi-polar paradigm. *Re-Thinking Men* reverses the proclivity which ignores not only the positive contributions of men to society, but also the male victims of life including the homeless, the incarcerated, the victims of homicide, suicide, accidents, war and the draft, and sexism, as well as those affected by the failures of the health, education, political and justice systems. Proceeding from a radically different perspective in seeking a more positive, balanced and inclusive view of men (and women), this book presents three contrasting paradigms of men as Heroes, Villains and Victims. With the development of a comparative and revised gender perspective drawing on US, Canadian and UK sources, this book will be of interest to scholars across a range of social sciences.

"An award-winning videogame writer offers a rare behind-the-scenes look inside the gaming industry, and expands on how games are transformed from mere toys into meaningful, artistic experiences"--

Sharp-eyed Marianne lives in a white tower made of steel and concrete with her father and the other Professors. Outside, where the land is thickly wooded and wild beasts roam, live the Barbarians, who raid and pillage in order to survive. Marianne is strictly forbidden to leave her civilized world but, fascinated by these savage outsiders, decides to escape. There, beyond the wire fences, she will discover a decaying paradise, encounter the tattooed Barbarian boy Jewel and go beyond the darkest limits of her imagination. Playful, sensuous, violent and gripping, *Heroes and Villains* is an ambiguous and deliriously rich blend of post-apocalyptic fiction, gothic fantasy, literary allusion and twisted romance.

Heroes and Villains, the seventh volume in Jon Scieszka's *Guys Read Library of Great Reading*, is chock-full of adventure featuring an array of characters—with and without capes. Featuring ten all-new, original stories that run the gamut from fantasy to comics to contemporary adventure to nonfiction, and featuring eleven of the most acclaimed, exciting writers for kids working today, this collection is the perfect book for you, whether you use your powers for good—or evil. Authors include Laurie Halse Anderson, Cathy Camper and Raúl Gonzalez, Sharon Creech, Jack Gantos, Christopher Healy, Deborah Hopkinson, Ingrid Law, Pam Muñoz Ryan, Lemony Snicket, and Eugene Yelchin, with illustrations by Jeff Stokely.

Boring vs. the Bible? No contest! Ding, ding, ding! Ladies and gentlemen, welcome to *Bible Infographics for Kids Vol. 2*, where we're going to compare some of the most AWESOME opposites from God's Word and witness amazingly EPIC battles between good and evil. See these fierce foes square off in the infographic octagon: Light vs Darkness—and why you'll never see them in the same place. Angels vs Demons—both are powerful, but only one side will win in the end. Feats of God vs Failures of Men—God did incredible things. Men? Not so much. False Gods vs the One True God—separating the many pretenders from the only real contender. Heaven vs. Hell—hell is no joke. But neither is heaven. It will be seriously mind-blowing! Plus...fantastic animals, fallen empires, the 411 on the four Gospels, and way more! And yes, we're going to explore more fun and quirky facts from God's Word and gain a bunch of Bible knowledge along the way. Because that's what infographics do. They make the most exciting book in the world that much more craze-mazing!

The Real and the Reflected: Heroes and Villains in Existent and Imagined Worlds, unpacks many of the issues that surround heroes and villains. It explores the shadows that fall between the traditional black and white definitions of good and evil.

A fun collection of five bite-size myths from across the globe, *Heroes and Villains* by Anthony Horowitz includes gripping tales from Greek, Polynesian and English mythology. Part of the *Legends* series of six books, *Heroes and Villains* from heroes such as Gawain and Achilles to classic villains such as Polyphemus the cyclops and the monster Grendel, these adventurous stories chart some of the greatest conflicts in storytelling. Featuring black and white illustrations, the *Legends* series by Anthony Horowitz, the author of the phenomenally successful *Alex Rider* series, brings classic stories to life with thrilling imagination.

Lessons from History is a joyful romp through the obscurest parts of the past. The annals have been scoured for overlooked figures and events that nonetheless made an impact, and within these pages they are brought hilariously and often poignantly back to life. Alex Deane began tweeting about quirky tales as a distraction from the monotony of lockdown. Now with over 2 million views online, the #deanehistory stories are a social media sensation. These tongue-in-cheek tales about eccentricity and endeavour have been comprehensively reworked and expanded for this book – which also contains many new neglected stories from the past. It will introduce you to figures as diverse as Louis-Napoléon, Prince Imperial of France, who died fighting for the British Army in South Africa; Stanislav Petrov, who, sat in his control bunker in Moscow, fatefully ignored his faulty computer's advance warning of nuclear attack and thereby saved the world; James Barry, who, despite being born Margaret Ann Bulkley at a time when women were barred from university, became a highly skilled surgeon and the UK's first female-born doctor; and Dr Ameyo Adadevoh, the first person to raise the alarm about Ebola, who played a vital role in containing the disease and paid the price by losing her life. The book also tells the story of obscure but remarkable events, such as the Aroostook War (also known as the Pork and Beans War), the Houlton Airlift, the Texel Rebellion and the Day of the Tiles. Readers will even be transported to the tiny Greek city state of Plataea in its heyday, before learning about its terrible fate.
